## WELCOME MESSAGE

Dear Doctor,  
Greetings from Yashoda Academy of Neurosciences.

It gives us immense pleasure to invite you for the 2nd edition of MASTER - 2019 (Management of Acute Stroke Thrombolysis & Endovascular Interventions), an international symposium covering exclusively and comprehensively on acute stroke management. Acute stroke care has been moving dynamically at a fast pace in the last 5 years. Since the first edition of conference - MASTER- 2016, numerous updates and guidelines have come into clinical practice, powered by many randomized control trials in I.V. Thrombolysis and Endovascular Mechanical Thrombectomy. We feel it is prudent to update ourselves about the latest management paradigms in acute stroke care to improve the patient outcomes.

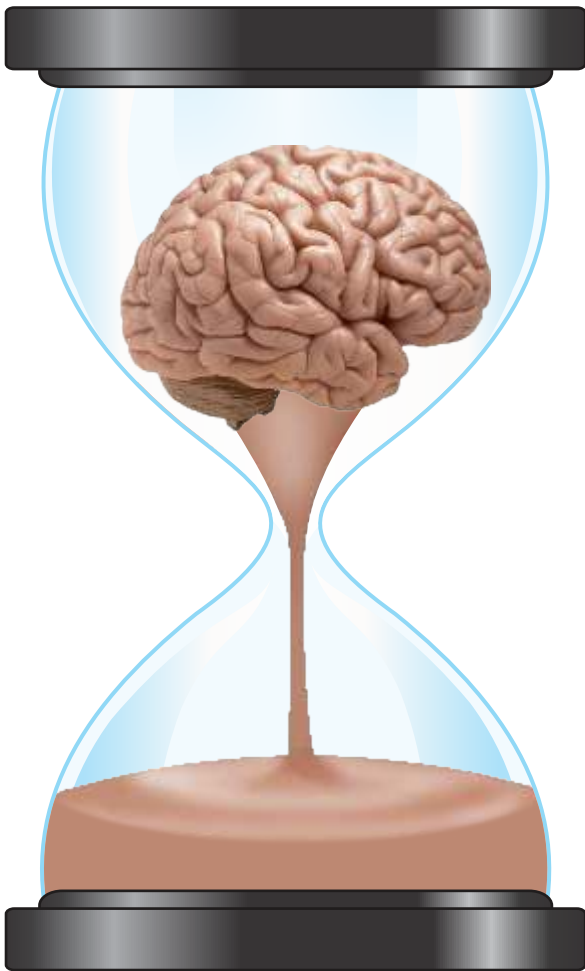

In the scheduled two days program, many reputed international and national faculty will be sharing their experience in acute stroke interventions in improving acute stroke outcomes. An exclusive workshop will be conducted on the second day of the program on acute stroke interventions including live video demonstrations by masters and hands-on simulator training.

We feel many of practicing clinicians including Neurologists, General Physicians, Emergency Physicians, Intensivists, Radiologists and other healthcare professionals will immensely benefit with this program. We are eagerly looking forward to your participation and active interaction during the program.

Organizing Committee Chairman

**Dr. Jaydip Ray Chaudhuri**
